Dear Srinivas Ramachandran and Chuck Henry,

Congratulations! Your application has been approved for a Proof of Concept award in the amount of \$300,000 through the Advanced Industries (AI) Accelerator Program. We are pleased to make this investment in a Colorado institution such as yours in an effort to drive economic growth, support jobs, technology commercialization, industry development and improve quality of life throughout Colorado.

In order to process your award, you must provide the items outlined in the Award Checklist. You must provide these items within 30 days of the award notification date.

Note that as of this notice, you may begin spending your matching funds. You cannot obligate the AI funds until your grant agreement is executed.

In order to ensure the continued success of the program for years to come, we are requiring you, as a grant recipient, to send a thank-you letter to your federal congressional representative, state senator and state representative. Please send us a copy of each of your letters.

Your award is made possible through an annual appropriation from the State of Colorado. Again, on behalf of the Governor and the state of Colorado, congratulations!

Sincerely,

Katie Woslager on behalf of the Advanced Industries Grant Team
